## PREPAID CYCLE

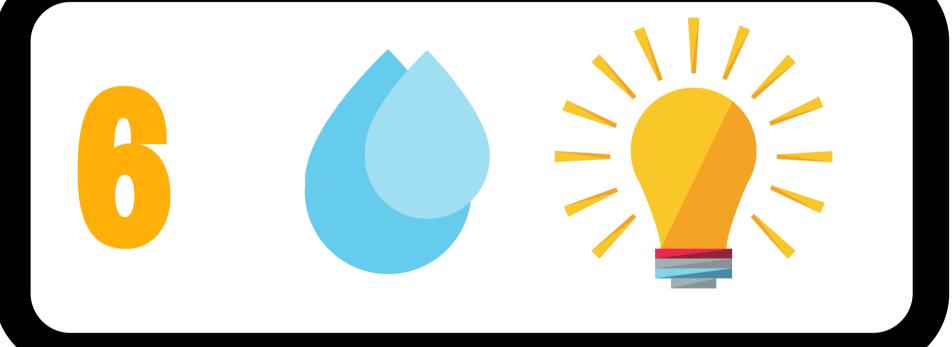

Landlord purchases prepaid meters and instruct a qualified electrician/plumber to install the meters. Once installed, Landlord appoints UtilityPal as Service Providers.

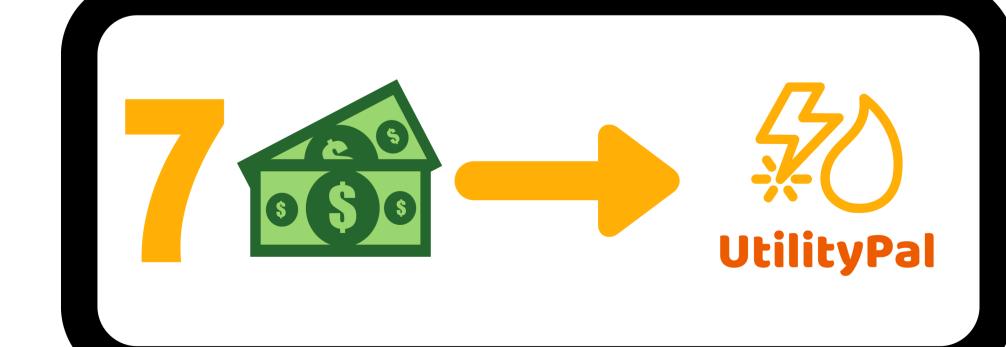

Once appointed and tariffs approved by Landlord, Tenant can than purchase for desired amount at a retailer point of sale by supplying their meter number.

Message is communicated from point of sale device to UtilityPal to generate a token for the meter.

Appliances and utilities can now be used until credit is depleted.

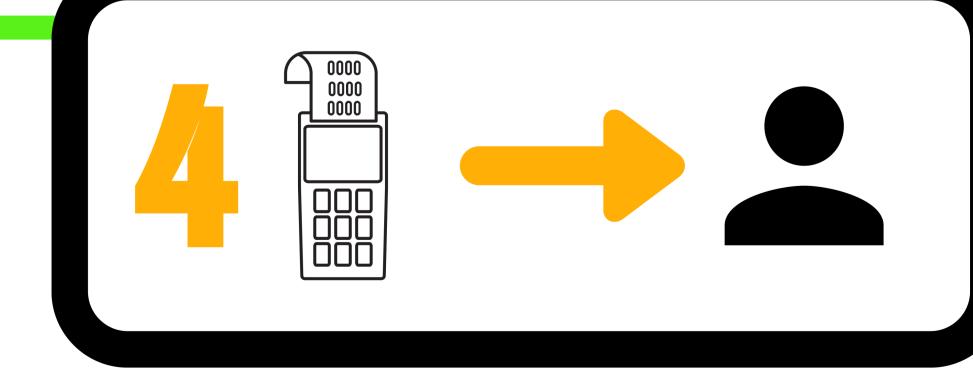

Funds are promptly settled

with the Landlord including

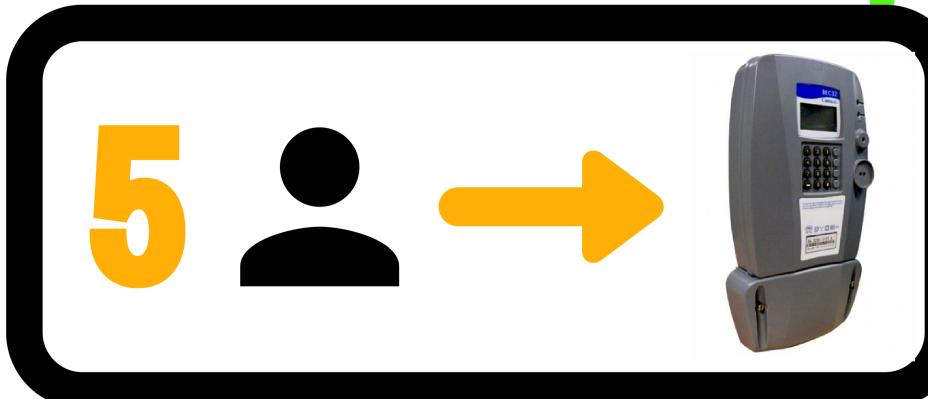

detailed report of all

transactions.

Funds are collected from retailer and sent to UtilityPal.

Tenant receives a receipt with a numeric 20 digit token/voucher.

Tenant inputs voucher into their meters which is then loaded with credit.
